HILLSDALE HARDY CLIMBERS

These are old and new Hardy Climbers and Pillar Roses, which seldom need any winter protection. They will bring hundreds of blooms to your garden during June, covering fences and trellises.

The price on the following potted plants is \$1.85 each

American Pillar. Single blooms of carmine-pink, with white eye and golden stamens.

Blaze. Blazing scarlet pillar Rose. Grows luxuriantly. Hardy and dependable; recurrent bloom.

Cl. American Beauty. Blooms large and fragrant; deep pink, shaded soft carmine.

Dr. W. Van Fleet. Cameo-pink fading to flesh-white; large, open, fragrant blooms.

Mary Wallace. Profusion of large, clear deep pink blooms.

Mme. Gregoire Staechelin. Delicate pink, fragrant flower. Large and vigorous.

New Dawn. The best everblooming climber. Apple-blossom-pink with old-Rose fragrance.

Paul's Lemon Pillar. Magnificent, double, lemon-yellow blooms.

Paul's Scarlet Climber. Oceans of bright scarlet flowers.

Royal Scarlet. Deeper red than Paul's Scarlet.

Seven Sisters. Double, deep pink clusters.

Silver Moon. Creamy white flowers with golden anthers.

HILLSDALE SUB-ZERO HARDY CLIMBERS

Sub-Zero Hardy Climbers are a new race from the hardest species of climbers. They live longer and will survive sub-zero winters.

THESE SPECIFICALLY QUOTED PRICES ARE FOR POTTED PLANTS

Cl. Break o'Day. Everblooming. Lovely double, orange to apricot flowers. \$2.50 each.

Golden Climber. Golden yellow, well-formed buds and blooms. Fragrant. Ideal for cutting. \$2.25 each.

Golden Glow. Fragrant, spectrum-yellow. Abundant mass of color. \$2.25 each.

Golden Pyramid. Cadmium-yellow blooms. Very vigorous. \$2.25 each.

Orange Everglow. Everblooming. Dazzling coppery orange. Fragrant. \$2.50 each.

HILLSDALE HYBRID TEA CLIMBERS

Climbing form of the bush Hybrid Teas. They are not as hardy as the other climbers and will require slight protection during winter months. After the first peak of June flowers, Hybrid Tea Climbers continue to bloom frequently during the entire season.

The price on the following potted plants is \$1.85 each

Cl. Etoile de Hollande. Double, bright red blooms. One of the best climbers.

Cl. McGredy's Ivory. Long-pointed bud; flower large, double fragrant, creamy white.

Cl. Mrs. P. S. du Pont. Double, deep yellow.

Cl. Pink Radiance. Bright pink. Same qualities as the bush Radiance.

Cl. Red Radiance. Soft rose-red—clear, even and velvety. Always dependable.

Cl. Talisman. The same fine vari-colored blooms as in the Hybrid Tea.

RUGOSAS, HYBRID PERPETUALS AND MISCELLANEOUS ROSES

This group includes the Shrub, Wild Species and Hybrid varieties, useful in landscape work for the shrub border. These Roses are hardy in the coldest regions and require little attention except pruning to keep them in balance.

The price of the following potted plants is \$1.85 each

American Beauty. Crimson-carmine, fragrant; long, strong stems. Vigorous.

Austrian Copper. Single, brilliant orange-red flowers with yellow reverse.

F. J. Grootendorst. Small, bright red flowers in clusters. Everblooming.

Frau Karl Druschki. Snow-white, immense blooms; pointed buds. Vigorous. One of the old favorites.

Hansa. Double, reddish flowers of large size.

Harison's Yellow. Semi-double, moderately fragrant, bright yellow.

Hugonis. The Rose of China. Light yellow flowers borne profusely along the branches. Very hardy; blooms early.

Max Graf. Bright pink, golden-centered blooms in June. Vigorous, trailing plant.

Pink Grootendorst. Charming pink variety of Grootendorst. Everblooming.

HILLSDALE ROSES

Roses from Hillsdale are always better. They are carefully selected, No. 1 field-grown plants—the best on the horticultural market. Each variety has been tested in our own gardens. This assures you of receiving hardy, vigorous plants, which will have beautiful blooms in abundance from varieties well adapted to this section of the Middle West.

Undoubtedly of great benefit to the Rose buyer is the potted plant, which enables us to offer our Roses already growing and blooming. This new way of selling them eliminates all danger of the plants being retarded in your garden and insures the buyer of exactly the variety desired.

These plants are growing in pots filled with a specially prepared soil, properly fertilized to insure rapid and permanent growth and bloom. Hillsdale Roses can be planted in your garden at any time during the growing season without showing even the slightest wilt of foliage, buds or blooms.

DIRECTIONS FOR RE-PLANTING POTTED ROSES

The re-planting of Hillsdale Potted Roses is very simple indeed. The pots are slit and carefully peeled off from the soil. The ball of earth is then set in the bed so that it comes about $\frac{1}{2}$ inch lower than the finished level of the beds. Be sure that the graft union at the neck of the roots is 1 inch below the surface. Always press the soil firmly around the roots of any kind of plant. This is done to force the air space out of the soil around the roots. After this, watering to soak the soil thoroughly is all that is necessary.

PLANTING INSTRUCTIONS FOR DORMANT PLANTS

Keep the roots moist all the time before planting. Spread out the roots so they do not crowd; cover them with good soil and firm the earth about them, eliminating all air pockets. Plant 15 to 18 inches apart, where there is sunshine at least half of the day. Mound soil about 10 inches high immediately after planting to keep the moisture in the branches.

Gruss an Teplitz. Dark maroon. Very hardy. One of the old favorite hybrids and still very popular.
J. Otto Thilow. Bud pointed, well shaped; flower large, double, high-centered, rich glowing rose-pink.
Joanna Hill. Fragrant, clear yellow with orange-yellow. Long-pointed buds.
K. A. Viktoria. A favorite white. Good in both bud and bloom; fragrant.
Los Angeles. Lovely combination of flame-pink, coral and gold.
Margaret McGredy. Orange-scarlet. Strong growing.
McGredy's Ivory. Beautiful creamy white blooms with exceptional fragrance.

Modern Hybrid Tea Roses represent the height of the hybridizer's art. They are among the most popular flowers in the world, both for garden decoration and for cutting. The blooms range from single to very double forms, through all the shades of pink, red, orange and yellow. They deserve a special place in every home garden, whether it be informal or formal in type, and will reward the grower with glorious fragrant blooms all summer long. The varieties listed here have been carefully chosen for our locality.

HILLSDALE SUB-ZERO EVERBLOOMING HYBRID TEAS

The price on the following potted plants is \$2.25 each

Break o'Day. Orange to apricot, large, very double flowers. Very vigorous. Free bloomer and delightfully inspiring.
Curly Pink. Many large, two-toned pink blooms in clusters on a single stem. Over 50 gracefully recurved petals.
Dick Wilcox. Deep red, very double blooms.
Henry Field No. 112. Strikingly beautiful large, double, deep red blooms in cluster on sturdy bushes.
Lily Pons. White with pure yellow center. Large, graceful flowers. Vigorous, free bloomer.

(Roses in this group are of a new race from hardier species that bloom all summer. They are of greater sturdiness and vigor and will live longer and will survive sub-zero winters.)

McGredy's Yellow. Double, buttercup-yellow flowers in profusion. The best light yellow.
Miss Rowena Thom. Bright pink; very large buds and fully double blooms.
Mme. Joseph Perraud. Double, large, fragrant, yellow, tinted copper at center; long stems.
Mme. Jules Bouche. Cream-white, flushed with pink; fragrant.
Mrs. Chas. Bell. Delicate shell-pink. Prolific bloomer.
Mrs. E. P. Thom. Pure yellow of excellent form.
Mrs. P. S. du Pont. Double; deep yellow with spicy fragrance.

An Invitation to Hillsdale Gardens

Our Rose gardens are located at Hillsdale Nurseries, $\frac{1}{4}$ mile south of Castleton, Indiana, and 8 miles northeast of Indianapolis on Road 100.

To reach us by motor from Indianapolis, take Fall Creek Boulevard, North Drive, at the intersection of State Road 37 and Keystone Avenue. Proceed to Millersville and continue on the boulevard to one mile beyond the Broadcasting Station, to intersection with Shadeland Avenue or Road 100; turn to left on Shadeland and continue $1\frac{1}{2}$ miles to Hillsdale Nurseries.

A second route is to drive out on the Noblesville Road to the junction of

Road 100 at Allisonville. Turn right (that is, east) on Road 100 and proceed 2 miles through Castleton to Hillsdale Nurseries. Or take any through street north out of Indianapolis to Road 100 and turn east on Road 100 to Nursery. From the eastern section of Indianapolis, take any through street east to Road 100 (Shadeland Avenue) and follow Road 100 (Shadeland) north to Nursery.

You are cordially invited to visit Hillsdale Gardens at any time. If you cannot visit us, call us for any information you need about Roses. Telephone: Broadway 5495.

Procession of the Rose Queen and her escorts through Hillsdale Gardens at our Annual Rose Festival

HILLSDALE ANNUAL ROSE FESTIVAL

This year on June 6 and 7, when the Roses are in full bloom, our large display gardens will be formally open to the public at our Thirteenth Annual Rose Festival. Our new Rose garden with over 3,000 Hybrid Teas, Climbers and Floribunda Roses now blooming in their second and third year, will be a beautiful sight to behold. We have added all the newer and best introductions and now have the finest and largest Rose garden in this section of the country. Many of the All-America Rose Selections of the past several years will be on display. Last year over 60,000 people visited our gardens during Rose Festival week. We have enlarged our parking facilities close to the garden and therefore will be able to accommodate even larger attendance.
